### NFIB SMALL BUSINESS ECONOMIC TRENDS

NFIB Research Center has collected Small Business Economic Trends Data with Quarterly surveys since 1973 and monthly surveys since 1986. The sample is drawn from the membership files of the National Federation of Independent Business (NFIB). Each was mailed a questionnaire and one reminder. Subscriptions for twelve monthly SBET issues are \$250. Historical and unadjusted data available, along with a copy of the questionnaire, from the NFIB Research Center. You may reproduce Small Business Economic Trends items if you cite the publication name and date and note it is a copyright of the NFIB Research Center. © NFIB Research Center. ISBS #0940791-24-2. Chief Economist William C. Dunkelberg and Executive Director of the NFIB Research Center Holly Wade are responsible for the report.

## **SUMMARY**

### **OPTIMISM INDEX**

The Optimism Index rose 1.9 points in August to 91.8. This is the eighth consecutive month below the 48-year average of 98. Of the 10 index components, 7 increased, 2 decreased, and 1 was unchanged. Twentynine percent of owners reported that inflation was their single most important problem in operating their business, a decrease of 8 points from July's highest reading since 1979 Q4. Owners expecting better business conditions over the next six months improved 10 points from July to a net negative 42 percent, the highest level since February. Forty-nine percent of owners reported job openings that were hard to fill, unchanged from July. The net percent of owners raising average selling prices decreased 3 points to a net 53 percent seasonally adjusted. The net percent of owners who expect real sales to be higher increased 10 points from July to a net negative 19 percent, a very bearish outlook but far better than the previous two months. The Uncertainty Index increased 7 points from last month to 74.

### LABOR MARKETS

Forty-nine percent (seasonally adjusted) of all owners reported job openings they could not fill in the current period, unchanged from July. Forty-one percent have openings for skilled workers (down 1 point) and 24 percent have openings for unskilled labor (up 3 points). The difficulty in filling open positions is particularly acute in the construction, manufacturing, and transportation sectors. Openings are lowest in the agriculture and wholesale sectors. Owners' plans to fill open positions remain elevated, with a seasonally adjusted net 21 percent planning to create new jobs in the next three months (up 1 point). Successes will add to employment and produce more output to sell to anxious customers, but gains will be hard to come by. Fiftyseven percent (89 percent of those hiring or trying to hire) of owners reported few or no qualified applicants for the positions they were trying to fill (unchanged). Thirty-one percent of owners reported few qualified applicants for their open positions (up 1 point) and 26 percent reported none (down 1 point, and just 3 points shy of the 48year record high).

### **CAPITAL SPENDING**

Fifty-two percent reported capital outlays in the last six months, up 1 point from July. Of those making expenditures, 36 percent reported spending on new equipment (unchanged), 18 percent acquired vehicles (down 3 points), and 14 percent improved or expanded facilities (unchanged). Thirteen percent spent money for new fixtures and furniture (up 4 points) and 6 percent acquired new buildings or land for expansion (up 1 point). Twenty-five percent plan capital outlays in the next few months, up 3 points from July. A more positive view of the future economy and economic policy would help stimulate longer term investment spending, but currently, owners' views about the future are not supportive. Investment is needed to address labor supply chain problems in the current environment.

### **SALES AND INVENTORIES**

A net negative 8 percent of all owners (seasonally adjusted) reported higher nominal sales in the past three months, down 3 points from July. The net percent of owners expecting higher real sales volumes improved by 10 points to a net negative 19 percent. The net percent of owners reporting inventory increases fell 7 points to a negative 6 percent. Not seasonally adjusted, 15 percent reported increases in stocks and 19 percent reported reductions. Thirty-two percent of owners recently reported that supply chain disruptions have had a significant impact on their business. Another 33 percent report a moderate impact and 23 percent report a mild impact. Only 11 percent report no impact. A net 3 percent of owners viewed current inventory stocks as "too low" in August. By industry, shortages are reported most frequently in manufacturing (24%), transportation (23%), retail (19%), agriculture (14%), and construction (11%). A net 4 percent of owners plan inventory investment in the coming months up 3 points from July.

### COMPENSATION AND EARNINGS

Seasonally adjusted, a net 46 percent reported raising compensation, down 2 points from July. A net 26 percent plan to raise compensation in the next three months. Ten percent cited labor costs as their top business problem, up 1 point from July, and 26 percent said that labor quality was their top business problem (up 5 points). Labor quality remains in second place behind "inflation" by 3 points. The frequency of reports of positive profit trends was a net negative 33 percent, down 7 points from July. Among owners reporting lower profits, 36 percent blamed the rise in the cost of materials, 23 percent blamed weaker sales, 12 percent cited labor costs, 7 percent cited lower prices, 6 percent cited the usual seasonal change, and 4 percent cited higher taxes or regulatory costs. For owners reporting higher profits, 38 percent credited sales volumes, 35 percent cited usual seasonal change, and 13 percent cited higher prices.

### **CREDIT MARKETS**

Four percent of owners reported that all their borrowing needs were not satisfied (up 1 point). Twenty-three percent reported all credit needs met (down 2 points) and 60 percent said they were not interested in a loan (down 2 points). A net 6 percent reported their last loan was harder to get than in previous attempts (up 1 point). One percent reported that financing was their top business problem (unchanged). A net 21 percent of owners reported paying a higher rate on their most recent loan, up 2 points from July. The average rate paid on short maturity loans was 6.16 percent. Twenty-seven percent of all owners reported borrowing on a regular basis (up 1 point).

### **INFLATION**

The net percent of owners raising average selling prices decreased 3 points from July to a net 53 percent seasonally adjusted. Unadjusted, 8 percent (unchanged) reported lower average selling prices and 60 percent (down 5 points) reported higher average prices. Price hikes were most frequent in construction (71 percent higher, 3 percent lower), retail (67 percent higher, 7 percent lower), transportation (62 percent higher, 0 percent lower), and manufacturing (61 percent higher, 3 percent lower). Seasonally adjusted, a net 32 percent plan price hikes (down 5 points).

## COMMENTARY

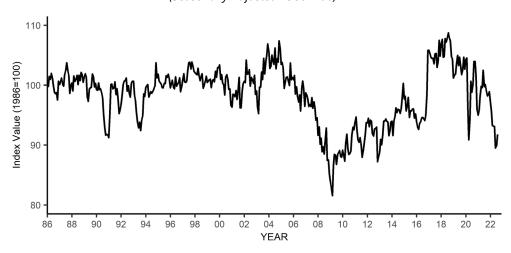

Inflation remains the #1 problem for small business owners. Gas is cheaper, but not much else. Congress passed the Inflation Reduction Act, but most analysts, regardless of political persuasion, think it won't have much impact on the inflation rate, if any. Looks like we'll have to rely on the Federal Reserve for some policy help, and we'll probably get a heavy dose of it. Expect the Fed to raise its policy rate by another 75 basis points in its next meeting, and additional hikes beyond. And it is curtailing its purchase of Treasury bonds which will also put upward pressure on market interest rates. Mortgage interest rates have already doubled and will rise further, slowing down housing purchases and construction.

Higher borrowing costs will not contribute to inflation, lots of businesses don't operate with bank (etc.) loans. To slow inflation, costs coming in the back door must fall and that includes more than the cost of loans. Utilities, fuel, labor, supplies, materials, rent, and inventory, all rising at near double-digit rates. Slowing the economy (the Fed's goal) will reduce demand, create excess capacity and inventories, and this will put a downward pressure on selling prices, but input costs won't respond immediately, including labor costs which will be managed by cutting employment and hours, not wage cuts. Wages will stop rising, and be reduced in real terms as inflation persists, which it will for the rest of the year and into 2023.

The global economy looks set to have a more severe slowdown than the U.S., bad news for our exports already adversely affected by the strong dollar which makes our products more expensive to other countries. There is still too much stimulus coming from federal and state governments, but that will continue to slow down except for unemployment benefits when firms start laying off workers. It will be a rough road ahead as we feel the brunt of new Fed. policies designed to undo the damage done by policies that created our current inflation problems.

Number of Full and Part-Time Employees

## **NFIB RESEARCH CENTER SMALL BUSINESS ECONOMIC SURVEY**

| SMALL BUSINESS SURVEY QUESTIONS  | PAGE IN REPORT |
|--|----------------|
| Do you think the next three months will be a good time for small business to expand substantially? Why?  | 5              |
| About the economy in general, do you think that six months from now general business conditions will be better than they are now, about the same, or worse?                | 6              |
| Were your net earnings or "income" (after taxes) from your business during the last calendar quarter higher, lower, or about the same as they were for the quarter before? | 7              |
| If higher or lower, what is the most important reason?   | 7              |
| During the last calendar quarter, was your dollar sales volume higher, lower, or about the same as it was for the quarter before?  | 8              |
| Overall, what do you expect to happen to real volume (number of units) of goods and/or services that you will sell during the next three months?                           | 8              |
| How are your average selling prices compared to three months ago?  | 9              |
| In the next three months, do you plan to change the average selling prices of your goods and/or services?  | 9              |
| During the last three months, did the total number of employ in your firm increase, decrease, or stay about the same?  |                |
| If you have filled or attempted to fill any job openings in the past three months, how many qualified applicants were there for the position(s)?                           | 10             |
| Do you have any job openings that you are not able to fill right now?  | 11             |
| In the next three months, do you expect to increase or decrease the total number of people working for you?  | 11             |
| Over the past three months, did you change the average employee compensation?  | 12             |
| Do you plan to change average employee compensation during the next three months?  | 12             |

| SMALL BUSINESS SURVEY QUESTIONS   | PAGE IN REPORT |
|---|----------------|
| Areloans easier or harder to get than they were three months ago?   | 13             |
| During the last three months, was your firm able to satisfy its borrowing needs?  | 14             |
| Do you expect to find it easier or harder to obtain your required financing during the next three months?   | 14             |
| If you borrow money regularly (at least once every three months) as part of your business activity, how does the rate of interest payable on your most recent loan compare with that paid three months ago? | 15             |
| If you borrowed within the last three months for business purposes, and the loan maturity (pay back period) was 1 year or less, what interest rate did you pay?   | 15             |
| During the last three months, did you increase or decrease your inventories?  | 16             |
| At the present time, do you feel your inventories are too large, about right, or inadequate?  | 16             |
| Looking ahead to the next three months to six months, do you expect, on balance, to add to your inventories, keep them about the same, or decrease them?  | 16             |
| During the last six months, has your firm made any capital expenditures to improve or purchase equipment, buildings, or land?   | 17             |
| If [your firm made any capital expenditures], what was the total cost of all these projects?  | 18             |
| Looking ahead to the next three to six months, do you expect to make any capital expenditures for plant and/or physical equipment?  | . 18           |
| What is the single most important problem facing your business today?   | 19             |
| Please classify your major business activity, using one of the categories of example below  | . 20           |
| How many employees do you have full and part-time, including yourself?  | 20             |
