NFIB SMALL BUSINESS ECONOMIC TRENDS

NFIB Research Center has collected Small Business Economic Trends Data with Quarterly surveys since 1973 and monthly surveys since 1986. The sample is drawn from the membership files of the National Federation of Independent Business (NFIB). Each was mailed a questionnaire and one reminder. Subscriptions for twelve monthly SBET issues are \$250. Historical and unadjusted data are available, along with a copy of the questionnaire, from the NFIB Research Center. You may reproduce Small Business Economic Trends items if you cite the publication name and date and note it is a copyright of the NFIB Research Center. © NFIB Research Center. ISBS #0940791-24-2. Chief Economist William C. Dunkelberg and Executive Director of the NFIB Research Center Holly Wade are responsible for the report.

SUMMARY

OPTIMISM INDEX

The Optimism Index declined 2.1 points in December to 89.8. This is the twelfth consecutive month below the 49-year average of 98. The last time the Index was at or above the average was December 2021. Of the 10 index components, 1 increased, 8 decreased, and 1 was unchanged. Thirty-two percent of owners reported that inflation was their single most important problem in operating their business, unchanged from last month. Owners expecting better business conditions over the next six months worsened 8 points from November to a net negative 51 percent. Forty-one percent of owners reported job openings that were hard to fill, down 3 points from November. The net percent of owners raising average selling prices decreased 8 points to a net 43 percent seasonally adjusted. The net percent of owners who expect real sales to be higher worsened 2 points from November to a net negative 10 percent.

LABOR MARKETS

Forty-one percent (seasonally adjusted) of all owners reported job openings they could not fill in the current period, down 3 points from November. Thirty-five percent have openings for skilled workers (down 2 points) and 16 percent have openings for unskilled labor (unchanged). The difficulty in filling open positions is particularly acute in the construction, manufacturing, and transportation sectors. Owners' plans to add positions remain elevated, with a seasonally adjusted net 17 percent planning to create new jobs in the next three months, down 1 point from November and 15 points below its record high reading of 32 reached in August 2021. Overall, 55 percent reported hiring or trying to hire in December, down 4 points from November. Fifty-one percent (93 percent of those hiring or trying to hire) of owners reported few or no qualified applicants for the positions they were trying to fill (down 3 points). Twenty-six percent of owners reported few qualified applicants for their open positions (down 5 points) and 25 percent reported none (up 2 points).

CAPITAL SPENDING

Fifty-five percent reported capital outlays in the last six months, unchanged from November. Of those making expenditures, 37 percent reported spending on new equipment (down 2 points), 22 percent acquired vehicles (up 3 points), and 12 percent spent money for new fixtures and furniture (up 1 point). Eleven percent improved or expanded facilities (down 1 point) and 4 percent acquired new buildings or land for expansion (down 1 point). Twenty-three percent plan capital outlays in the next few months, down 1 point from November. Since January, the average interest rate paid on loans has risen from 5.0% to 7.7%.

SALES AND INVENTORIES

A net negative 8 percent of all owners (seasonally adjusted) reported higher nominal sales in the past three months, down 1 point from November. The net percent of owners expecting higher real sales volumes deteriorated 2 points to a net negative 10 percent. The net percent of owners reporting inventory increases declined 5 points to a net 0 percent. Not seasonally adjusted, 15 percent reported increases in stocks and 16 percent reported reductions. Twenty-three percent of owners recently reported that supply chain disruptions have had a significant impact on their business. Another 30 percent reported a moderate impact and 32 percent reported a mild impact. Only 13 percent reported no impact from recent supply chain disruptions. A net 1 percent of owners viewed current inventory stocks as “too low” in December, up 3 points from November. A net negative 4 percent of owners plan inventory investment in the coming months.

COMPENSATION AND EARNINGS

Seasonally adjusted, a net 44 percent reported raising compensation, up 4 points from November. A net 27 percent plan to raise compensation in the next three months, down 1 point from November. Eight percent cited labor costs as their top business problem, down 1 point from November, and 23 percent said that labor quality was their top business problem (up 2 points). Labor quality remains in second place behind “inflation” by 9 points as the top business problem. The frequency of reports of positive profit trends was a net negative 30 percent, down 8 points from November. Among owners reporting lower profits, 30 percent blamed the rise in the cost of materials, 24 percent blamed weaker sales, 12 percent cited labor costs, 9 percent cited lower prices, 8 percent cited the usual seasonal change, and 3 percent cited higher taxes or regulatory costs.

CREDIT MARKETS

Two percent of owners reported that all their borrowing needs were not satisfied (unchanged). Twenty-five percent reported all credit needs met (up 3 points) and 62 percent said they were not interested in a loan (unchanged). A net 7 percent reported their last loan was harder to get than in previous attempts (up 2 points). Three percent reported that financing was their top business problem (unchanged and the highest since December 2018). A net 23 percent of owners reported paying a higher rate on their most recent loan, unchanged from November. The average rate paid on short maturity loans was 7.7 percent, only 0.2 percent below last month’s highest level since March 2008. Twenty-eight percent of all owners reported borrowing on a regular basis (up 1 point).

INFLATION

The net percent of owners raising average selling prices decreased 8 points from November to a net 43 percent seasonally adjusted, the lowest since May 2021. Unadjusted, 12 percent (up 4 points) reported lower average selling prices and 51 percent (down 5 points) reported higher average prices. Price hikes were most frequent in wholesale (77 percent higher, 7 percent lower), manufacturing (60 percent higher, 4 percent lower), construction (59 percent higher, 8 percent lower), and transportation (59 percent higher, 6 percent lower). Seasonally adjusted, a net 24 percent plan price hikes (down 10 points).

COMMENTARY

The widely anticipated (predicted) recession did not arrive in 2022, but is still expected this year. The economy is clearly slowing, monthly job creation averaged 562,000 in 2021, but only 375,000 last year, with December closing the year at 223,000. Rising mortgage rates have clearly slowed the important housing sector, already suffering from shortages of materials and labor. The negative impact of the dramatic increase in interest rates has not been fully felt, and more rate hikes are almost certain early in the year. The unemployment rate is very low, but the labor force is smaller than it was pre-Covid.

Inflation remains well above the Fed's 2% target, and the Fed is expected to raise rates again at its January meeting, though increases are expected to be smaller than those of 2022. Owners continue to call inflation their top business problem, lamenting the cost increases for their inputs (inventory, supplies, labor, energy, etc.) which compel them to raise their selling prices to cover the costs. In the most recent NFIB Covid-19 survey in December, owners still blamed rising input costs as the main cause, rather than labor costs (which will be the more stubborn costs to remediate). Sixty-eight percent cited input costs compared to 34% blaming compensation costs. When the cost of inputs like fuel or inventory fall, cutting selling prices is easy as owners try to attract more customers. But wages are very sticky, it's hard to ask workers to take a cut so that selling prices can be reduced. And how all of this is impacted by higher interest rates is harder to figure out, including for Fed officials.

Overall, owners are not optimistic about 2023, sales and business conditions are expected to deteriorate. Owners will focus on their businesses, and do their best to deal with the fallout from all of the uncertainties in a year of slow growth and still-persistent inflation.

SMALL BUSINESS SURVEY QUESTIONS	PAGE IN REPORT
Do you think the next three months will be a good time for small business to expand substantially? Why?	5
About the economy in general, do you think that six months from now general business conditions will be better than they are now, about the same, or worse?	6
Were your net earnings or "income" (after taxes) from your business during the last calendar quarter higher, lower, or about the same as they were for the quarter before?	7
If higher or lower, what is the most important reason?	7
During the last calendar quarter, was your dollar sales volume higher, lower, or about the same as it was for the quarter before?	8
Overall, what do you expect to happen to real volume (number of units) of goods and/or services that you will sell during the next three months?	8
How are your average selling prices compared to three months ago?	9
In the next three months, do you plan to change the average selling prices of your goods and/or services?	9
During the last three months, did the total number of employees in your firm increase, decrease, or stay about the same?	10
If you have filled or attempted to fill any job openings in the past three months, how many qualified applicants were there for the position(s)?	10
Do you have any job openings that you are not able to fill right now?	11
In the next three months, do you expect to increase or decrease the total number of people working for you?	11
Over the past three months, did you change the average employee compensation?	12
Do you plan to change average employee compensation during the next three months?	12

SMALL BUSINESS SURVEY QUESTIONS

PAGE IN REPORT

Are...loans easier or harder to get than they were three months ago?	13
During the last three months, was your firm able to satisfy its borrowing needs?	14
Do you expect to find it easier or harder to obtain your required financing during the next three months?	14
If you borrow money regularly (at least once every three months) as part of your business activity, how does the rate of interest payable on your most recent loan compare with that paid three months ago?	15
If you borrowed within the last three months for business purposes, and the loan maturity (pay back period) was 1 year or less, what interest rate did you pay?	15
During the last three months, did you increase or decrease your inventories?	16
At the present time, do you feel your inventories are too large, about right, or inadequate?	16
Looking ahead to the next three months to six months, do you expect, on balance, to add to your inventories, keep them about the same, or decrease them?	16
During the last six months, has your firm made any capital expenditures to improve or purchase equipment, buildings, or land?	17
If [your firm made any capital expenditures], what was the total cost of all these projects?	18
Looking ahead to the next three to six months, do you expect to make any capital expenditures for plant and/or physical equipment?	18
What is the single most important problem facing your business today?	19
Please classify your major business activity, using one of the categories of example below	20
How many employees do you have full and part-time, including yourself?	20
