## NFIB <br> SMALL BUSINESS ECONOMIC TRENDS

#### Abstract

NFIB Research Center has collected Small Business Economic Trends Data with Quarterly surveys since 1973 and monthly surveys since 1986. The sample is drawn from the membership files of the National Federation of Independent Business (NFIB). Each was mailed a questionnaire and one reminder. Subscriptions for twelve monthly SBET issues are $\$ 250$. Historical and unadjusted data are available, along with a copy of the questionnaire, from the NFIB Research Center. You may reproduce Small Business Economic Trends items if you cite the publication name and date and note it is a copyright of the NFIB Research Center. © NFIB Research Center. ISBS \#0940791-24-2. Chief Economist William C. Dunkelberg and Director of Research and Policy Analysis Holly Wade are responsible for the report.

## OPTIMISM INDEX

The Optimism Index declined to 95.0 in January, down 0.9 points from December and 3 points below the 47-year average. Four of the 10 Index components declined, two improved, and four were unchanged. The NFIB Uncertainty Index decreased 2 points to 80 . Owners expecting better business conditions over the next six months declined 7 points to a net negative 23 percent, the lowest level since November 2013. The net percent of owners expecting better business conditions has fallen 55 points over the past four months. Sales expectations for the next three months declined 2 points to a net negative 6 percent. Earnings trends over the past three months declined 2 points to a net negative 16 percent reporting higher earnings compared to the prior period.

## LABOR MARKETS

Job growth continued in January. Firms increased employment by 0.36 workers per firm on average over the past few months, up from 0.30 in December, a very strong 2-month performance. But the hiring is uneven geographically and by industry. Thirty-three percent (seasonally adjusted) of all owners reported job openings they could not fill in the current period, up 1 point from December. Twenty-eight percent have openings for skilled workers (up 1 point) and 12 percent have openings for unskilled labor (up 1 point). Forty-four percent of the job openings in construction are for skilled workers, up 3 points. Fifty-six percent of construction firms reported few or no qualified applicants (down 3 points) and 32 percent cited the shortage of qualified labor as their top business problem (down 1 point but historically high). Overall, 51 percent reported hiring or trying to hire in January, unchanged from December. Owners have plans to fill open positions, with a seasonally adjusted net 17 percent planning to create new jobs in the next three months, unchanged from December. Fortysix percent ( 90 percent of those hiring or trying to hire) of owners reported few or no "qualified" applicants for the positions they were trying to fill in January, down 2 points. Twenty-six percent of owners reported few qualified applicants for their open positions (unchanged) and 20 percent reported none (down 2 points).

## CAPITAL SPENDING

Fifty-five percent reported capital outlays in the last six months, up 3 points from December. Of those making expenditures, 41 percent reported spending on new equipment (up 3 points), 27 percent acquired vehicles (up 7 points), and 15 percent improved or expanded facilities (up 4 points). Five percent acquired new buildings or land for expansion (unchanged), and 12 percent spent money for new fixtures and furniture (up 4 points). The increase is welcome, but leaves capital spending historically low, damaging growth prospects and future productivity gains. Twenty-two percent plan capital outlays in the next few months, unchanged from December, but low. This is consistent with the dismal view of future economic activity and sales levels held by small business owners. New capital is not needed if more production and sales don't occur.

## SALES AND INVENTORIES

A net negative 7 percent of all owners (seasonally adjusted) reported higher nominal sales in the past three months, down 5 points from December. The net percent of owners expecting higher real sales volumes decreased 2 points to a net negative 6 percent. The net percent of owners reporting inventory increases rose 2 points to a net negative 4 percent. This is not surprising given the increase in the percent of owners reporting lower sales compared to December. Consumer spending did fade at the end of 2020. The net percent of owners viewing current inventory stocks as "too low" decreased 2 points in January to 5 percent, matching the decline in the percent of firms reporting higher inventories. A net 4 percent of owners plan inventory investment in the coming months, unchanged from December.

## COMPENSATION AND EARNINGS

Seasonally adjusted, a net 25 percent reported raising compensation (up 4 points) and a net 17 percent plan to do so in the coming months, up 3 points. Seven percent cited labor costs as their top business problem (up 1) and 21 percent said that labor quality was their top business problem, unchanged from December. In some sectors such as construction, finding qualified labor is an issue and when found, is expensive. However, in the service sector, wage pressures are not a problem. The frequency of reports of positive profit trends decreased 2 points to a net negative 16 percent reporting quarter on quarter profit improvement. The profit decline occurred "in sympathy" with the fall-off in sales late in 2020. Among owners reporting lower profits, 43 percent blamed weaker sales, 17 percent cited the usual seasonal change, 6 percent cited a higher cost of materials, 6 percent cited labor costs, and 5 percent cited lower prices. For owners reporting higher profits, 60 percent credited sales volumes, 17 percent cited usual seasonal change, and 8 percent cited higher prices.

## CREDIT MARKETS

Two percent of owners reported that all their borrowing needs were not satisfied (down 1 point). Twenty-four percent reported all credit needs met (down 2 points) and 61 percent said they were not interested in a loan (up 1 point). A net 1 percent reported their last loan was harder to get than in previous attempts (down 2 points). One percent reported that financing was their top business problem (unchanged). The net percent of owners reporting paying a higher rate on their most recent loan was negative 4 percent, up 1 point from December. The average rate paid on short maturity loans was 4.9 percent, up 0.1 percentage points from November. Loan rates continue to be consistently low. Twenty-three percent of all owners reported borrowing on a regular basis (down 3 points).

## INFLATION

The net percent of owners raising average selling prices increased 1 point to a net 17 percent, seasonally adjusted. Unadjusted, 11 percent (up 1 point) reported lower average selling prices and 27 percent (up 5 points) reported higher average prices. Price hikes were most frequent in wholesale ( 40 percent higher, 6 percent lower) and retail ( 27 percent higher, 10 percent lower). Seasonally adjusted, a net 28 percent plan price hikes (up 6 points).

## COMMENTARY

January came in with a whimper as consumer spending tailed off sharply at the end of 2020, leaving spending $2.5 \%$ below levels at the start of the year. GDP did no better, ending up 3.5\% below 2019 peak. Still, that represents a remarkable recovery from the plunge in GDP in 2020 Q2. Twenty million workers became unemployed, 10 million were "recovered," and the other 10 million remain unemployed coming into 2021. Initial claims for unemployment benefits are falling, indicating workers are finding a job (or giving up). NFIB firms reported solid hiring.

The government is organizing another stimulus package, about \$2 trillion. It includes $\$ 1,400$ payments to some citizens, additional unemployment benefits, vaccination program funds, well as a chunk of aid for states and localities. Added to the most recently passed stimulus package, this would provide a powerful fiscal boost that many fear would be strong enough to actually produce a jump in inflation.

Small firms are trying to figure out how to operate in the "now," adjusting operations to stay open, and seize upon any opportunities to grow. Hiring is good for those in less restricted industries and where consumer spending is strong. However, the "future" is not so rosy for many small firms, with expectations for business conditions and real sales in the tank. Important activities like capital spending remain depressed. Measures of applications for new business permits are strong, but just how are along these starts are in opening a real business is less clear.

With the new administration rolling out its policies, many important factors (taxes, government payments, etc.) are still unclear. The administration is moving quickly, so owners will have a much clearer picture of the future business environment soon. Until then, the economy has enough momentum to keep moving forward with construction and manufacturing leading the way. This will provide needed support (sales growth) for the new firms as well as for survivors.

## Small Business Survey Questions

Page in Report
Do you think the next three months will be a good time for small business to expand substantially? Why? ..... 4
About the economy in general, do you think that six months from now general business conditions will be better than they are now, about the same, or worse? ..... 5
Were your net earnings or "income" (after taxes) from your business during the last calendar quarter higher, lower, or about the same as they were for the quarter before? ..... 6
If higher or lower, what is the most important reason? ..... 6
During the last calendar quarter, was your dollar sales volume higher, lower, or about the same as it was for the quarter before? ..... 7
Overall, what do you expect to happen to real volume (number of units) of goods and/or services that you will sell during the next three months? ..... 7
How are your average selling prices compared to three months ago? ..... 8
In the next three months, do you plan to change the average selling prices of your goods and/or services? ..... 8
During the last three months, did the total number of employees in your firm increase, decrease, or stay about the same? ..... 9
If you have filled or attempted to fill any job openings in the past three months, how many qualified applicants were there for the position(s)? ..... 9
Do you have any job openings that you are not able to fill right now? ..... 10
In the next three months, do you expect to increase or decrease the total number of people working for you? ..... 10
Over the past three months, did you change the average employee compensation? ..... 11
Do you plan to change average employee compensation during the next three months? ..... 11
Are...loans easier or harder to get than they were three months ago?12
During the last three months, was your firm able to satisfy its borrowing needs? ..... 13
Do you expect to find it easier or harder to obtain your required financing during the next three months? ..... 13
If you borrow money regularly (at least once every three months) as part of your business activity, how does the rate of interest payable on your most recent loan compare with that paid three months ago? ..... 14
If you borrowed within the last three months for business purposes, and the loan maturity (pay back period) was 1 year or less, what interest rate did you pay? ..... 14
During the last three months, did you increase or decrease your inventories? ..... 15
At the present time, do you feel your inventories are too large, about right, or inadequate? ..... 15
Looking ahead to the next three months to six months, do you expect, on balance, to add to your inventories, keep them about the same, or decrease them? ..... 15
During the last six months, has your firm made any capital expenditures to improve or purchase equipment, buildings, or land? ..... 16
If [your firm made any capital expenditures], what was the total cost of all these projects? ..... 17
Looking ahead to the next three to six months, do you expect to make any capital expenditures for plant and/or physical equipment? ..... 17
What is the single most important problem facing your business today? ..... 18
Please classify your major business activity, using one of the categories of example below ..... 19
How many employees do you have full and part-time, including yourself? ..... 19

[^0]:    * Increased costs include labor, materials, finance, taxes, and regulatory costs.
